RADICALS THREATEN U. S.

They Work Here Short Time Then Return to Native Land.

"The United States is today threatened by radicals, many of whom are foreigners earning enough money in this country to return to their native lands and live in comfort," said Al F. Williams, United States attorney, at a meeting of the Topeka Co-Operative

club. "The business men of the country probably face these radicals more than persons in any other walks of life." In order to show the effect these radicals have in the state of Kansas, Mr. Williams told of the denunciation of the American flag during the time when America was engaged in the World war by 1,400 radicals. These persons declared they would not obey the laws of this country and would not respect the flag. "They sent a telegram to President Wilson telling him

of their policies but instead of having them all arrested and deported as he should have done, he did nothing at all to remedy the situation," Mr. Williams said. Mr. Williams urged the business men to stand strongly for true American principles. It was that trait of stating his beliefs strongly whether others agreed with him or not that made "Teddy" Roosevelt a favorite with American people, according to Mr. Williams. In a musical program preceding Mr. Williams' talk, several selections were played by the Howard Hawaiian orchestra and Miss Georgia Cleveland, accompanied by Miss Marion Bartel at the piano, sang two solos.

BEGIN CLEAN UP IN WICHITA

Two Assistants From Attorney General's Department Are on Job.

The attorney general's office is making a clean-up in Wichita. The dirty drive won't stop, it was declared, until the town has had a thorough cleaning. In the opinion of the state's legal department Wichita is sadly in need of a decided amount of reforming both as to its general moral tone and the sale of liquor. A number of injunctions against drug stores will be sought and efforts will be made to block alleged wholesale violations of law. Two assistant attorneys general are in charge of the Wichita clean-up. They will be kept on the job, it was stated, until the state department is convinced that a thorough reform has been worked out.

Haven Issues Challenge. Hutchinson, Kan., Dec. 21.—In a survey just made, among the boys of the high school at Haven, Reno county, it is found that out of 58 boys in the school there is not a habitual smoker and that only three boys smoke even occasionally. Haven sends a challenge to the high schools of Kansas to beat it.

DISCUSS NEW KAW BRIDGE

North Topeka Citizens Favor Location on Topeka Boulevard.

The proposition of a new bridge over the Kaw river, with the sense of the citizens of North Topeka favoring Topeka boulevard as the site, was presented to the city planning board by V. R. Parkhurst, civil engineer of North Topeka, and Ralph M. Campbell, North Topeka druggist, at the regular meeting of the board, held at the Chamber of Commerce.

Parkhurst and Campbell appeared as a committee appointed to convey to the board the recommendation of a mass meeting of the citizens of North Topeka, held recently, that if the traffic survey of Harland Bartholomew, city planner, recommends a new bridge across the Kaw as feasible and necessary, it be located between the Melan bridge on Kansas avenue and the Rock Island bridge on Tyler street.

The committee stated that the recommendation is based upon the findings of federal and local engineers who made a hydraulic survey of the channel of the river during the levee and flood protection three years ago, and that the least flood damage would be caused by the location of the bridge on Topeka boulevard.

The board also discussed the projects of the erection of viaducts across the Santa Fe tracks either on Eighth avenue or Tenth avenue, and determined to have them deferred in committee until the detailed traffic report by Bartholomew is received late in the winter. The same treatment was accorded the problem of the traffic congestion at the crossing of the Union Pacific tracks in North Topeka.

ROTARY GIVES TB CLINICS

Rural Free Examinations in Connection With Tuberculosis Association.

The directors of the Topeka Rotary club have voted to establish two rural free clinics in Shawnee county in connection with the work of the Topeka Tuberculosis association, it was announced by officers today.

The location of these clinics has not been decided upon. The arrangements will be made with the officers of the Tuberculosis association. The Rotary club has been active in rural acquaintance work for some time. In establishing these free clinics the club will be able not only to assist the Tuberculosis association in its fight against the great white plague in Topeka and Shawnee county but to carry on its rural activity along a more effectual line.

The city and county clinics are supported by such contributions as have been made by the Rotary club and by the sale of the Christmas seals.

DRUG STORES WILL CLOSE

Members of County Pharmaceutical Association to Observe Christmas.

Drug stores belonging to members of the Shawnee County Pharmaceutical association will be closed during the hours from 1 to 5 o'clock on the afternoon of Christmas day, it was decided at the weekly luncheon and meeting of the association at the Chamber of Commerce today.

The druggists will not hold any luncheon Wednesday of next week nor will the school of instruction for the salesforce of drug stores be held at the Chamber of Commerce on Tuesday.

P. C. Meeks of New Brunswick, N. J., salesman for a line of surgical supplies, addressed the druggists at their meeting today.

Plans have been started for a party and dance for the druggists and their wives, to be given during the latter part of January.

ROAD SHOW HERE DECEMBER 30
"Three Wise Fools" Will Be in Topeka Christmas Week.

A road show more than had been expected will be on the menu of Topeka theater goers this season. It is "Three Wise Fools," with Tom Wise in the leading role. It had been booked for Hutchinson December 30, but because of labor troubles there, the date was cancelled and the management changed the routing so that a matinee and a night performance can be given here on that date. But for this change in dating Topeka would have been without a legitimate show for Christmas week.

"Three Wise Fools" played Topeka two years ago with John Gillingwater in the leading role and scored a decided hit. The play is on the road under the direction of John Golden, the same producer who after first producing it, gave the county "Lightning," which also is due in Topeka, playing here with Thomas Jefferson in the leading role, early in February. Jefferson is the son of the Jefferson of "Rip Van Winkle" fame.

Topeka who remember "Three Wise Fools" from its local appearance here two seasons ago, are agreed that it is one of the best serio-comic plays that have been seen on the road in the past five years. Tom Wise, who takes the lead, is called by eastern critics "even better than Gillingwater" and some have even gone so far as to say that "The company is now even better than when it first played the piece on Broadway."

The play is all about three old bachelors who mourn the same sweetheart and who are awakened to their responsibilities by the daughter of the woman they mourn. It has its sweetly sad moments but the chief delight of the piece is the humanly humorous vein that runs all the way thru the story.
